

Kailash Ram Bhul

Web Developer

Strong in design and integration with intuitive problem-solving skills. Proficient in HTML, CSS, JAVASCRIPT, PHP, and SQL. Passionate about implementing and launching new projects. Ability to translate business requirements into technical solutions. Looking to start my career as an entry-level to Web development with a reputed firm driven by technology.

Nepali

TRAINING/CERTIFICATION

2021

Web Development Bootcamp By Dr.Angela Yu

I have finished the Full Udemmy Bootcamp of Dr.Angela Yu which was a good course for Web Development. In this course, I have got a good idea about how to build a website. I have learned the latest technologies, including Javascript, React, Node, and even Web3 development. Now, I am able to build any website as per requirement.

2022

Salive.in (DSA Course)

I am learning Data Structure And Algorithm with Sachin sir. He is one of my favorite teachers. I am still working on DSA which helps me with a good clear concept of programming. This helps me also in the Backend, where there is a large amount of data that need to be processed with minimal latencies.

EXPERIENCE

Feb-2022

Portfolio website

This is my portfolio website which is the only front-end-based website. I have made this website using Bootstrap which helps me with more ideas about Bootstrap. Link in the bottom (My portfolio)

Apr 2022-Jun 2022

College project(Bus Ticketing System)

When I started building this project, at that time I have no idea about real-world projects. After completing that project I learned more ideas about real-world projects and basic ideas about e-commerce web-sites
